INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. Rulemaking activity consists of proposed or adopted new rules or amendments to or repealers of existing rules, including those by emergency or preemptory action.

The *Register* also contains Executive Orders and Proclamations issued by the Governor, notices of public information required by State statute, and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies. In addition, the *Register* contains a Cumulative Index listing alphabetically by agency the Parts (sets of rules) on which rulemaking activity has occurred in the current *Register* volume and a Sections Affected Index listing, by Title of the *Illinois Administrative Code*, each Section (including supplementary material) of a Part on which rulemaking activity has occurred in the current volume. Both indices are action coded and are designed to aid the public in monitoring rules.

The *Register* will serve as the update to the *Illinois Administrative Code*, a compilation of the rules of State agencies. The most recent edition of the *Code* along with the *Register* comprise the most current accounting of the State agencies' rules.

The *Illinois Register* is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act (Ill. Rev. Stat. 1991, ch. 127, pars. 1001 et seq., as amended).

The Department or the participating local governmental unit shall discuss with the individual available Earnfare assignments, together with any restrictions and qualifications the Earnfare employers have specified for the assignments. Individuals will be assigned hours of Earnfare based upon their initial food stamp authorization amount. If the dispute cannot be resolved, the individual may utilize the Illinois Department's appeal process.

- 6) The Illinois Department will provide necessary clothing to enable participants to report to their Earnfare job site. Participants will be required to submit a written request for clothing needed. Food Stamp Employment and Training program staff will determine eligibility and authorize up to \$100.00 per 12 month period.

Individuals participating in Earnfare first work the number of hours equal to food stamp benefits and subsequently earn financial assistance benefits.

- 2) Individuals are required to report as scheduled and on time to their Earnfare employer when notified of a referral. When they cannot report to their Earnfare assignment or if they will be late, they are to immediately notify their Earnfare employer.

- 3) If the individual demonstrates an inability to sustain the work that has been assigned and the Earnfare assignment was appropriate to the individual's abilities, the Illinois Department shall re-assess the individual and if appropriate shall refer the person to apply for Transitional Assistance or Interim Assistance and federal SSI benefits.

- 4) An individual may be dismissed by the employer from an Earnfare assignment prior to its completion. 2) Code Citation: 89 Ill. Adm. Code 117

3) Section Numbers: Proposed Action:

117.54 Amendment

4) Statutory Authority: Sections 12-13 of the Illinois Public Aid Code (Ill. Rev. Stat. 1991, ch. 23, par. 12-13) [305 ILCS 5/12-13]

5) Complete Description of the Subjects and Issues Involved: The funeral and burial rule states that all other sources of payment must be exhausted before the Department will accept responsibility for payment of funeral and burial expenses. A life insurance policy on the life of the client owned by someone other than the client does not affect the client's financial or medical assistance eligibility. However, upon the client's death, if the proceeds of the life insurance policy are paid to the person who pays for any portion of the client's funeral and burial expenses, the proceeds are a source of payment. These proposed amendments allow the Department to treat the proceeds of life insurance as a source of payment for funeral and burial expenses when paid to the person claiming reimbursement, even when the policy was not owned by the client.

As a result of these proposed amendments, the Department will allow as a deduction from the amount it will pay for funeral and burial expenses to any person who is not a legally responsible relative of the decedent, the proceeds of life insurance on the decedent that were received by the claimant.

6) Will these proposed amendments replace emergency amendments currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Do these proposed amendments contain incorporations by reference? No

9) Are there any other proposed amendments pending on this Part? Yes

Ill. Rev. Stat. 1991, ch. 95 1/2, par. 506-1 et seq.

5) A Complete Description of the Subjects and Issues Involved:

These rules were adopted to implement the provisions of paragraph 506-3 of the Driver License Medical Review Act (Ill. Rev. Stat. 1991, ch. 95 1/2, pars. 501-6 et seq.). This paragraph established a Driver License Medical Advisory Board. The purpose of this Board was to assist the Department of establishing standards for determining the degree to which a person's physical condition constitutes a limitation to his ability to operate a motor vehicle or causes him to be a driving hazard.

These rules are being proposed for repeal because the Driver License Medical Review Act has been repealed by P.A. 87-860, effective July 1, 1992. Therefore, there no longer is any authorization for these rules to be in existence. The economic effect of this repealer is that it will save the Department approximately \$50,000 per year in contractual, administrative, clerical, and postage costs. However, the program is being taken over by the Office of the Secretary of State. It is unknown what the costs will be for that Agency. The Department anticipates adoption of this rulemaking approximately six to nine months after the publication of this notice in the Illinois Register.

Section 525.10 Introduction -- Definitions

This part shall be published and filed in the manner provided by law; and shall be applicable forthwith in all cases which the Secretary of State transmits to the Driver License Medical Advisory Board for review.

- a) This Part and any other rules of the Medical Advisory Board which are to be filed with the Secretary of State pursuant to The Illinois Administrative Procedure Act (Ill. Rev. Stat. 1981, ch. 127, pars. 1001 et seq.), as now or hereafter amended, shall not be in effect unless approved by a majority of the Board.

- b) Terms used in this Part are defined as follows:

"Board" means the Driver License Medical Advisory Board.

"Chairman" means the duly selected Chairman of the Medical Advisory Board.

"Department" means the Department of Public Health.

"Director" means the Director of the Department of Public Health.

"Panel" means a review of the Board consisting of not less than 3 members, which shall hear an individual's case on the merits.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

Section 525.20 Informal Determination -- Request for Hearing

When the Secretary of State transmits a case for the Board's consideration, the Department with the concurrence of the Chairman, shall assign the case for informal determination.

- a) The Department may, with the concurrence of the Chairman, assign the case to an appropriate individual Board member for informal determination.
- b) The Department may, with the concurrence of the Chairman, assign the case to the full Board or to a group consisting of more than one Board member for informal determination.
- c) If at any time an individual Board member to whom the Department has assigned a case for informal determination, feels it necessary that a group consisting of more than one Board member make the informal determination, that individual member shall make a request to that effect to the Department. The Department, with the concurrence of the Chairman, shall make the necessary arrangements for a group informal determination.
- d) All informal determinations shall be made as promptly as possible given the Board's caseload, the complexity of the individual case, and any other relevant factors.
- e) Once an informal determination has been made, the Board shall communicate the results of that informal determination to the individual under review.

1) The informal determination as communicated to the individual under review shall include a determination of what medical conditions exist which may constitute driver limitations which may impair the individual's ability to operate a motor vehicle safely or which may cause that individual to be a driving hazard.

2) The informal determination as communicated to the individual under review shall be based on stated medical evaluations and determinations, and shall be in accordance with established standards. It shall indicate the scope of driving privileges which would enable the individual under review to operate a motor vehicle without creating a driving hazard, including the extent to which compensatory aids and devices must be used and the need for future controls.

3) The Department on behalf of the Board shall communicate the informal determination to the individual under review by U.S. certified mail within 14 days after the determination has been made. The 14 day period shall exclude the date of the informal determination. If the day or days immediately succeeding the date of informal determination are a Saturday, Sunday, or holiday as defined or fixed by statute now or hereafter in force in this state, then that day or those days shall also be excluded. The 14 day period shall include the day on which the individual under review receives the informal determination as evidenced by the U.S. postal service return receipt.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

4) The name or names of the Board member or members making the informal determination shall not be disclosed to the individual under review.

f) Subsequent to an informal determination, the individual under review shall have the right to request a hearing on the merits.

1) In order to secure a hearing on the merits, the individual under review shall request the hearing within 20 days of the individual's receipt of the informal determination. Such request shall be made upon forms provided by the Department, and if possible shall be returned to the Department by U.S. certified mail.

2) The 20 day period shall exclude the day upon which the individual receives the informal determination as evidenced by the date on the U.S. postal return receipt, and shall include the day upon which the request for a hearing was postmarked.

3) The Board shall transmit no unfavorable informal determination to the Secretary of State until the completion of any hearing on the merits, or until the time for requesting a hearing on the merits has run with no such request forthcoming.

4) If the unfavorable informal determination is not contested and a hearing is not requested within the 20 day period, then the informal determination shall have the effect of a ruling made by hearing as stated in Section 525.50 of this Part.

5) If an informal determination is in no way unfavorable to the individual under review, it shall have the effect of a final recommendation of the Board; at the same time that such informal determination is communicated to the individual under review, the Board shall forward it to the Director who shall within 7 days transmit it to the Secretary of State for action thereon.

6) An unfavorable informal determination is any determination that a medical condition exists which may constitute a driver limitation which may impair the individual's ability to operate a motor vehicle safely or cause him or her to be a driving hazard. An unfavorable informal determination also includes a recommendation that the individual under review should be allowed less than the full scope of driving privileges, and includes recommendation for requiring the use of compensatory aids and for requiring future controls.

Section 525.30 Additional Medical Information and Examination

At any time in making an informal determination or in conducting a hearing, the Board or any individual member thereof may require the person under review to submit to medical examinations and to consent to make available to the Board for its use any and all pertinent medical records, as so provided in the Driver License Medical Review Act, as now or hereafter amended.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

- a) Any person under review who refuses to submit to an examination or consent to provide information, or both, shall as a matter of law be considered unqualified to operate a motor vehicle until such time as the individual complies with the Board's request and the Board is able to make its findings and recommendations at which time such findings and recommendations shall control.
- b) The results of any examination ordered or conducted by the Board shall be made available to the individual under review or to his or her medical examiner with the consent of the individual under review.

Section 525.40 Review Panel -- Pre-hearing and Hearing Procedures

Upon receipt of a hearing request by the individual under review, the Department shall proceed to arrange for the hearing on the merits.

- a) All hearings shall be conducted within 30 days after receipt of a request for such hearing by the person under review. The 30 day period shall exclude the day upon which the Department receives the request but shall include the day upon which the hearing is held. If the 30th day is a Saturday, a Sunday, or a holiday as defined or fixed by statute now or hereafter in force in this state, then that day shall be excluded; and if the next immediately succeeding day or days are a Saturday, Sunday, or holiday as defined or fixed by statute now or hereafter in force in this State, then that day or those days shall also be excluded.
- b) A hearing on the merits shall be by a panel of the Board consisting of not less than 3 members.

- 1) The individual Board member who made the informal determination shall, with the concurrence of the Chairman, select the panel.

- 2) The panel members shall be selected by whatever criteria are appropriate given the nature of the particular case under review. If the medical issues involve more than one medical specialty, every effort shall be made to include the corresponding specialist members on the panel. The panel shall whenever feasible include the individual Board member who made the informal determination.

- 3) Before the hearing begins, the panel shall select one of the panel members as chairperson who shall conduct the proceedings.

- c) After an individual under review requests a hearing on the merits by a review panel of the Board, the Department shall send notice to the individual under review stating the time and place of the hearing.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

- 1) The Department shall send the notice to the individual under review by U.S. certified mail no later than 10 days before the hearing is held. The 10 day period shall exclude the day on which the individual under review receives the notice as evidenced by the date on the U.S. postal service return receipt, and shall exclude the day on which the hearing is scheduled.
- 2) The Department may grant the individual under review a continuance to a later time and date certain upon good cause shown and with the concurrence of the Chairman.
- 3) The hearing shall be held at the offices of the Department in either Springfield or Chicago depending upon the convenience of the panel members and of the individual under review.

- d) During the period between a request for a hearing and the hearing, both the individual under review and the panel (as represented by the Department) may request discovery. Discovery shall include but not be limited to depositions, production of lists of witnesses to be presented at the hearing, production of copies of exhibits and materials to be offered at the hearing, and, as provided in Section 525.30 of this Part, submission to medical examination and production of medical records.

- e) The purpose of the hearing shall be to provide the individual under review an opportunity to present his or her case, through the use of testimony, to at least three members of the Board. The hearing shall be as formal as is necessary to assure protection of the individual's Due Process rights, but shall otherwise be sufficiently informal and flexible to provide a meaningful inquiry by the review panel.

- 1) Evidence which is admissible at a hearing includes not only any evidence which would be admissible in a judicial proceeding but also any evidence of probative value which is commonly accepted by reasonable, prudent persons in the conduct of serious affairs, and which is reasonably necessary to the proper determination of the rights of the individual before the Board.

- 2) The rules of privilege recognized by the law of this state shall be observed where appropriate.

- 3) Adherence to the technical rules of evidence shall not be required unless it appears to the Department or to the Panel that a failure to observe such rules may materially affect the rights of the individual under review and result in substantial injustice to that person. All admissible evidence shall be considered in accordance with its relative probative value in formulating the final recommendation of the panel.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

4) A copy of the whole or any part of an admissible book, record, paper, or memorandum of the Department or of the Office of the Secretary of State made by a photostatic or other method of accurate and permanent reproduction may be admitted in evidence at the hearing without further proof of the accuracy of such copy.

5) The panel may take official notice of any competent fact of which a court of this state may take judicial notice. In addition, the panel may take official notice of general, technical, or scientific facts within the special expertise of its own members. The panel may also take official notice of all papers and documents of the Board or its members, of the Department, and of the Office of the Secretary of State, if such papers and documents are made a part of the record.

f) At a hearing on the merits, the individual under review may present witnesses and testimony in his or her behalf. Other witnesses may be heard at the request of the Department or of any panel member.

1) The individual under review may be represented by counsel. The Department, where appropriate, shall present witnesses to be heard at the request of the Department or of any panel member.

2) The Department shall designate an official reporter to make a stenographic record of the hearings in all proceedings. The Department will provide for such copies of the transcript as the Board may require for its own purposes. No other copies of the transcript will be available to any individual other than to the individual under review, who may obtain a copy by paying to the official reporter the appropriate charges.

3) All witnesses testifying at a hearing shall be sworn in by the official reporter.

4) Witnesses' testimony shall be heard in an orderly fashion. Both the individual under review and the panel, as well as the Department, shall have the opportunity to cross examine witnesses. The individual under review shall open and close the presentation of testimony.

5) During the presentation of witnesses and testimony, all panel members shall have the opportunity at any time to ask questions pertinent to the panel's inquiry.

6) There shall be no limit as to the number of witnesses which the panel will hear, provided all testimony is relevant and material, and provided testimony is not unduly repetitious.

g) The panel may continue the hearing to a later date certain, at its own initiative or at the request of the individual under review.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

Section 525.50 Final Recommendation

Upon completion of the hearing, the panel shall provide a written final recommendation, indicating the scope of driving privileges which would enable the individual under review to operate a motor vehicle without creating a driving hazard, including the extent to which compensatory aids and devices must be used and the need for future controls.

a) Such recommendation shall include a summary of those findings and determinations of what medical conditions of the individual under review exist which may constitute driver limitations which may impair the individual's ability to operate a motor vehicle safely or which may cause that individual to be a driving hazard. The determination shall include a statement of those medical facts, judgments and evaluations which the panel used in making its recommendation.

b) Subsequent to a hearing, the final written findings, determinations, and recommendations shall be made available as promptly as possible.

c) The final written findings, determinations, and recommendations shall be promptly communicated to the individual under review. It shall be made clear that the Board's action constitutes a recommendation to the Secretary of State who will make the final decision with respect to driving privileges.

d) The final written findings, determinations, and recommendations shall be forwarded to the Director who shall transmit them to the Secretary of State within 7 days. The Board shall retain a record of the proceedings. If needed, a transcript shall be made available to the Office of the Secretary of State for use in administrative and judicial review.

SOURCE: Filed December 3, 1976; codified at 8 Ill. Reg. 4940, repealed at 18 Ill. Reg. _____, effective _____.

Section 530.5 Introduction

a) General physical and mental characteristics which are necessary in order to drive a motor vehicle.

b) After considerable discussion and review of the currently available literature, we have come to the conclusion that we are better able to describe those physical and mental characteristics which are necessary in order to drive a motor vehicle, than to systematically list those disease states which interfere with driving. We have tried the standard list approach, and have reviewed those currently available and find them difficult to understand and often redundant, because many different diseases affect the body in much the same way. However, it seems much more logical to define the characteristics that are necessary for operation of a motor vehicle, many of which seem self-evident.

c) First of all, the individual has to have the ability to sit in the automobile, hold his head up so that he can apprehend the world in front of him, and then must have sufficient dexterity to operate the controls of the vehicle. We feel that those medical conditions which interfere with proper emotional state, intellectual capacity, or physical control of the vehicle should be fairly self evident and, where they exist, every attempt should be made to help the individual overcome or circumvent the handicap so that he is able to operate a motor vehicle under full or limited licensure.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

d) The following is a tentative list of factors which we consider important:

1) Emotional and Intellectual Capacity

First of all, the individual should have the ability to sustain consciousness throughout the interval in which he attempts to drive. He should be free of distractions or hallucinations, respiratory distress, pain, or other bodily discomforts. He should be free of impulsive behavior, homicidal tendencies, or suicidal tendencies. He should be oriented with advanced preparation of his destination. He should possess the ability to recognize symbols of language and road signs, and possess the ability not only to see objects in his field of vision, but to recognize their significance and to react to them with sufficient speed to avoid catastrophe. He must possess sufficient memory facility to recall his destination, recall the significance of road signs and hazards, and recall the operational control of his vehicle. He must be able to distinguish left from right and to judge distance and relative speed.

2) Motor and Sensory Ability

The individual must possess the ability to sit stably in an erect posture and hold his head erect. In order to amplify the field of vision, he should be able to turn his head at least 25 degrees in either direction. He must possess the use of all four extremities, and have the strength and dexterity to operate the controls of the automobile in a coordinated manner with sufficient speed to react to emergency situations, or possess and use compensating mechanisms for the same purpose.

3) Special Senses

Loss of taste and smell are not considered to be a significant disability. Although the lack of smell may interfere with recognition of fires, it is not ordinarily a hazard when driving. Most studies confirm that deafness is not a serious limitation upon those who drive occasionally, but may be a problem for commercial drivers who spend a great deal of time in a vehicle. The standards for vision have been well worked out and are fairly universally agreed upon.

Section 530.10 Consciousness

There is no attempt, in the list below, to be all-inclusive, but to make an illustrative list of conditions which interfere with the individual's capabilities to operate a motor vehicle in a safe and efficient manner.

a) Epilepsy:

1) This category does not include the so called "diencephalic epilepsy" made by EEG diagnosis alone.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

- 2) It does include all forms of major and minor seizures of the grand mal, petit mal, psychomotor, or Jacksonian variety, whether or not the individual has had a major convulsion.
- 3) No distinction is made between "nocturnal epilepsy" and other forms.

b) Narcolepsy and Cataplexy:

Rare--Not a contraindication to licensing provided under care of a physician and free of involuntary sleep and cataplexy on appropriate amphetamine treatment.

c) Syncope:

- 1) In acute situations where syncope is the result of a temporary physical illness there is no contraindication to driving.

- 2) Persons who habitually react to stress by fainting should not be licensed.

- 3) Persons who faint as the result of chronic cardiovascular or pulmonary disease, chronic blood loss secondary to uterine or GI bleeding, hypoglycemia, or diabetes should be licensed only on recommendation of their physician and with any limitations he deems necessary.

- 4) Persons who faint as the result of transient cerebral ischemia due to cerebral atherosclerosis should be restricted in the same way as epileptics.

Section 530.20 Cardiovascular and Endocrine

a) Diagnoses

1) Cardiovascular Disease

- A) Acute: These people are ill enough to be currently under medical care. Recent myocardial infarction or heart surgery, acute congestive failure, acute hypertensive crises, acute disorder of rhythm.
- B) Chronic: Most of these people are also under regular medical care. Angina pectoris, severe hypertension, chronic congestive heart failure, chronic rhythm disorders with or without artificial pacemakers.

- 2) Diabetes, uncontrolled.

b) Criteria

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

- 1) Except for people with obvious weaknesses, extreme shortness of breath, or fainting at time of examination, the Driver Facility Representative is going to have to rely on the applicant's answers to a questionnaire and then require a medical report based on those answers.
- 2) Question 6 on the current Illinois application form is a good one. It states, "Do you have any physical defects such as heart condition, diabetes, or any other defect which might cause dizziness or temporary loss of consciousness that could interfere with safe driving?" (If answered "Yes," a statement will be required from your physician.)
- 3) Persons wishing to cheat on this question are not going to be picked up on any observations of health made by the Driver Facility Representative--indeed, they can cheat and fool even experienced physicians. But most people will be honest and will at least check with their physician who can fill out his statement.
- 4) All of these persons should have a statement from a physician as to the severity and control of their condition and its interference with driving. The question used in some States, "Doctor, would you be willing to ride with this person as an operator of a motor vehicle?" is an excellent one and should be used in Illinois.
- 5) After the physician's statement is received, it should be evaluated and the license issued if it answers the questions satisfactorily, or referred to the Driver License Medical Advisory Board if there is any doubt. The Board could request further information before recommending issuance or non-issuance of a license. The situation could be reevaluated at 3-6-9-12 month intervals.

c) Specific Problems

- 1) Diabetes. The problem is a low blood sugar, and this is easily corrected. Such an individual is required to have candy immediately available while driving. A statement from the doctor should be obtained also.
- 2) Cardiac Pacemakers. People using these are safe if the device is functioning well. An annual report on the functioning of the pacemaker is required.

Section 530.30 Emotional and Intellectual

Psychiatric Reasons to Deny Driving Privilege:

The standard approach has been to focus on specific mental illnesses. This is less than useful and unfair as, for example, one may be schizophrenic and suffer no true driving disability. Here, specific manifestations of illness which have an obvious and direct bearing on operation of a motor vehicle will serve as foundation.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

a) Intellectual Impairment.

- 1) Organic conditions of the brain may impair consciousness, produce disorientation, impulsivity, and emotional instability, impair memory, and interfere with symbol recognition and response. Judgment will deteriorate. (Brain conditions may also produce sensory and motor disturbances, but these will receive attention in the neurology section.)

2) Examples:

- A) Chronic: Senility, mental retardation, presenile dementia, brain injury secondary to stroke, trauma, etc.
- B) Acute: Alcoholism, drug abuse, post ictal states.
- C) Medication. Many prescribed medications produce sleepiness or drowsiness. Persons receiving such medications must arrange not to drive while experiencing such effects. To knowingly drive while influenced in such a way by medications is equivalent to driving while intoxicated.

3) Identification

- A) Testing at time of application (easy).
- B) Testing at time of renewal application.
- C) Hospital and doctor reporting (should be required by law).

b) Impaired Reality Testing.

- 1) This disability is generally associated with psychogenic conditions which may be acute (reversible) or chronic (irreversible). To drive safely one must be free of distractions such as visual and auditory hallucinations. Delusions may have a profound effect on judgment and behavior (the Devil is driving that school bus and must be destroyed).

2) Examples:

Impaired reality testing can occur (but not necessarily so) in schizophrenia, any depression of psychotic proportions such as manic depressive illness, involuntal melancholia, or in organic conditions of the brain (covered above).

3) Identification.

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

A) Testing (may be difficult).

- B) Reporting (may be socially undesirable) by applicant, hospitals, doctors, or others.

c) Suicidal or Homicidal Inclinations.

1)

- A) Self or other destructive feelings, impulses, thoughts or behavior may occur in psychoses, depressions, or, some claim, independently. In general, such feelings, etc., are associated with hopelessness, nihilism, desperation, and relinquishment of moral and social values. When one gets so low as to consider suicide, little else may be considered. For example, the rights and safety of others may be ignored. Thus, this category is extremely important.

- B) Accident proneness (a history of many accidents), or frequent traffic violations, may represent more subtle manifestations of self destructive or simply destructive inclinations.

2) Examples:

- A) The major depressions, such as manic depressive illness and involuntal melancholia are certainly, but not necessarily, associated with suicidal tendencies, but these may be a feature of the psychoses as well. Most mental illnesses are intricately tied in with depression and thus the potential is there. Some claim suicidal inclinations may exist independent of disease.

- B) Sometimes suicidal inclinations are "unconscious" that is, behavior may be self destructive without conscious awareness. This is often true in alcoholism, drug abuse and accident proneness.

3) Identification

- A) A history of such acts

- B) Testing (difficult?)

- C) Reporting by others

- 4) Anyone entering a hospital for a self inflicted injury, or involved in three accidents in one year, or receiving multiple tickets for moving violations within a given period, should be required to undergo reexamination and file a medical report. Anyone proven to have used an automobile to perpetrate a consciously intended destructive or

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

self destructive act should be barred from driving permanently (or at least for five years).

d) Alcohol and Drug Abuses.

- 1) This is a symptom of a disturbed life and accident studies consistently associate alcohol and drug abuse and accidents.
- 2) Any mental disturbance may be associated with alcohol or drug abuse.
- 3) Stiffer penalties (license deprivation) for driving while intoxicated.
- 4) Alcoholism itself, being an illness, should not subject a person to penalty--however, anyone proven to have driven while intoxicated should be barred from further driving (or at least for five years). The same applies to abuse of barbiturates, opiates or other physically addictive substances.
- 5) Marijuana is not as dangerous as alcohol or hard drugs, but its use while driving is somewhat dangerous and should be discouraged with somewhat stiffer penalties. (Problem: No lab means available to measure blood levels of THC%).

* Tetrahydrocannabinol: A mind affecting chemical, the principal and most active ingredient is marijuana.

Section 530.40 Motor and Sensory Ability

a) Standard Licensing

The driver must be able to sit upright and hold head up with stability and comfort without need for bucket seat, safety belt or shoulder harness. He must be able to control the car with ease, hands gripping the steering wheel and reaching the controls, feet reaching the floor and pedals, all without unbalancing or stressing the driver. The driver must be able to carry out all routine operations of the motor vehicle with steady, well coordinated, movements and without undue nervousness. Reaction time must be average, not limited by muscle, joint, motor or skeletal deformity.

b) Restricted Licensing

- 1) Any individual requiring any special personal (artificial limb, brace, etc.) or auto equipment (swivel seat, power steering, shoulder harnessing, etc.) or adaptive equipment to operate the motor vehicle (hand controls; left foot brake) should be issued a restricted license following satisfactory road testing.
- 2) These individuals must be able to transfer in and out of the motor vehicle

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

independently. A sliding board and or a grab bar, if required, will be stated in the restriction. They must be stable in the upright position with head up using harnessing, head rest or whatever equipment is required to accomplish this.

- 3) These individuals will require annual reexamination (road testing), particularly if they have a progressive disease. A physician's examination will be required for many of these individuals before road testing.

c) Limited or Special Licensing for Specific Type Vehicle

- 1) Individuals who are bound to an electrically operated wheelchair will be limited to van type vehicle with electrically operated doors, elevator, and controls. Where necessary, the controls should be placed on an unbiological. The wheelchair must be easily locked and unlocked from a very stable driver position. These individuals must carry two way radios, flares, or other distress signaling devices. The vehicle should be equipped with a secondary electric power source.

- 2) Annual reexamination and road testing is indicated.

Section 530.50 Special Senses

Visual Limitations

- a) Much attention has been directed to limitations of vision which may impair ability to drive. Although considerable attention is directed to visual abnormalities, studies indicate that they are not of exceptional importance.
- b) The State of Illinois' current regulations seem adequate. The current standards for private vehicle operation--best corrected vision of 20/50 to 20/70 for daytime driving solely and 20/40 for day and night driving--provide an adequate level of visual acuity.
- c) The vision test should not be administered to any applicant for an initial or renewal drivers license who wishes to use a bioptic telescopic lens arrangement of any type.
- d) There should not be marked nystagmus present, double vision, nor should the visual fields be narrowed to less than 110 degrees total visual field. Generally, defects in color vision, severe enough to impair sign detection, are also associated with reduced vision. Depth perception seems to be of no significance. General regulations relate to refractive errors not exceeding more than 10 diopters. However, this does not seem to be a significant factor. Possibly the ability to see the small print in the drivers licensing examination may well limit ability to pass the test.
- e) It is believed the personnel in the Driver Services Department is fairly skilled at recognizing the motor and mental impairments that interfere with driving. They should be alert for

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED REPEALER

marked deviations from normal in appearance of the eyes, the jiggling movements of the eyes with nystagmus, and attempts by the candidate to squeeze his eyes closed, and the like.

- f) In respect to appeals concerning visual requirements, the publication, "Visual Factors in Automobile Driving, and Provisional Standards," by the American Medical Association's Committee on Medical Aspects of Automotive Safety (Archives of Ophthalmology 81-865, 1969) provides useful guidance.

Section 520.40 Training Approved Methods

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

The Illinois Department of Public Health recommends the training of all restaurant employees in the standards and guidelines for cardiopulmonary resuscitation and emergency cardiac care has determined that the following methods in accordance with the "Standards and Guidelines for Cardiopulmonary Resuscitation and Emergency Cardiac Care," American Heart Association (1986/92), no further amendments or editions included, can be used safely and effectively in an emergency by laymen to remove food lodged in a person's throat. Reprinted from The Journal of the American Medical Association, June 6, 1986, Volume 255, Number 21, Pages 2841-3044. This training should include the following techniques:

- a) ~~Obstructed Airway~~ Lay people should be taught to recognize victims of airway obstruction (choking) by utilizing the following signs:
 - 1) ~~Victim is unable to speak, cough, or breathe;~~
 - 2) ~~Victim is turning blue (this sign will be difficult to observe in Blacks, Asians, etc.);~~
 - 3) ~~Victim appears to struggle; grasps throat with hands;~~
- a)b) Emergency Care for Obstructed Airway - Rescuer should approach victim and ask if victim is able to speak.
 - 1) If victim is unable to speak, the EMS system should be activated. ~~The rescuer shall deliver subdiaphragmatic abdominal thrusts (Heimlich Maneuvers) until the obstruction is relieved or the victim becomes unconscious.~~
 - 2) To deliver the subdiaphragmatic abdominal thrusts, the rescuer shall position the victim in front of the rescuer. The rescuer then places his/her arms around the victim's waist and makes a fist with one hand. Place the thumb side of the fist against the victim's abdomen, in the midline slightly above the navel and well below the tip of the xiphoid process. Grasp the fist with the other hand. Press the fist into the victim's abdomen with a quick, upward thrust. Each new thrust shall be a separate and distinct movement. The thrust should be repeated and continued until the object is expelled from the airway or the patient becomes unconscious. ~~Six to ten thrusts may be necessary to clear the airway.~~
- c) ~~Emergency Care for an Unconscious Victim~~ If the rescuer has attempted the above steps without success and victim becomes unconscious, rescuer should place victim on floor, establish unresponsiveness, by shaking the victim's shoulder and calling for the victim to respond, position victim's head by hyperextending or tilting it, to open the airway and attempt to ventilate by performing the following steps:
 - 1) ~~Attempt to ventilate by opening the victim's mouth and performing the finger sweep. The finger sweep involves the insertion of the rescuer's finger into the~~

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

victim's mouth to make sure that no foreign body is present.

- 2) ~~Attempt rescue breathing by pinching the victim's nostrils and making a seal with mouth over the victim's mouth approximately 4 to 6 breaths.~~
- 3) ~~If unable to ventilate, perform an additional six to ten subdiaphragmatic abdominal thrusts by placing the victim in a supine, face up position. The rescuer kneels astride the victim's thighs. The rescuer places the heel of one hand against the victim's abdomen, in the midline slightly above the navel and well below the tip of the xiphoid. The second hand is placed directly on top of the first. The rescuer presses into the abdomen with a quick, upward thrust.~~
- 4) ~~Open the victim's mouth and perform the finger sweep.~~
- 5) ~~Attempt to ventilate.~~
- 6) ~~Repeat the sequence of subdiaphragmatic abdominal thrusts, finger sweep and attempt to ventilate.~~
- 7) ~~Persist in these efforts as long as necessary.~~
- 8) ~~A second person, if available, shall call local emergency personnel as soon as possible.~~
- 9) ~~If victim has cardiac arrest, proceed with Cardio Pulmonary Resuscitation.~~
- d) ~~Warnings:~~
 - 1) ~~Do not practice on people. Abdominal thrusts may cause injury.~~
 - 2) ~~Use backblows and chest thrusts and do not perform the finger sweep on infants and children 8 and under, unless the child is large.~~
 - 3) ~~Use chest thrusts on pregnant women and obese victims.~~
- e) ~~Instruction in Cardio Pulmonary Resuscitation and the "Subdiaphragmatic Abdominal Thrust" is available through the American Heart Association, Illinois Affiliate, Chicago Heart Association and the American Red Cross.~~
- f) ~~All instruction is voluntary on the part of the food service establishment.~~
- b) ~~Recommended Sequence for Victim Who is or Becomes Unconscious.~~

DEPARTMENT OF PUBLIC HEALTH

NOTICE OF PROPOSED AMENDMENTS

- 1) If a syncope episode is witnessed and a foreign body is suspected, the rescuer should open the mouth of the unconscious victim and perform the finger sweep.
- 2) If the victim is found unconscious (establish unresponsiveness) or no foreign body is suspected during witnessed loss of consciousness, rescue breathing should be attempted. Activate EMS System.
- 3) If the victim cannot be ventilated even after attempts to reposition the airway, an abdominal thrust for an unconscious victim should be performed up to five times.
- 4) The victim's mouth should be opened and a finger sweep performed.
- 5) If the victim cannot be ventilated even after attempts to reposition the airway, an abdominal thrust for an unconscious victim should be performed up to five times.
- 6) These efforts should be repeated and continued as long as necessary.
- 7) If the obstruction is removed, begin cardiopulmonary resuscitation, if necessary.
- 8) Use chest thrusts on pregnant women and markedly obese victims.
- c) Recommended Sequence for an Infant with a Foreign Body Airway Obstruction.
 - 1) Deliver back blows to infant in prone position straddling the rescuer's forearm, which should rest on his/her thigh to support the infant.
 - 2) Deliver up to five back blows forcefully between the infant's shoulder blades, using the heel of the hand.
 - 3) After delivering the back blows, place the free hand on the infant's back, holding the infant's head. The victim is sandwiched between the rescuer's two hands; one hand supports the head, neck, jaw, and chest while the other supports the back.
 - 4) Turn the infant while the head and neck are carefully supported, and hold the infant in the supine position, draped on the thigh. The infant's head should remain lower than the trunk.
 - 5) Provide up to five quick downward chest thrusts in the same location as chest compressions - lower third of sternum, approximately one finger's breadth below the intermammary (nipple) line.
 - 6) If these maneuvers are difficult to perform, place the infant supine on the lap, the head lower than the trunk, with the head firmly supported. After up to five back

DEPARTMENT OF PUBLIC HEALTH

- blows have been performed, turn the infant as a unit to the supine position and perform up to five chest thrusts.
- 7) Remove the foreign body if it is visualized. Do not perform finger sweep.
 - 8) Open the airway and attempt rescue breathing. If the airway remains obstructive (chest does not rise), reposition the head and attempt rescue breathing.
 - 9) If the airway remains obstructed, repeat back blows and chest thrusts and rescue breathing attempts until the object is removed and rescue breathing is successful.
 - d) Recommended Sequence for a Child with a Foreign Body Airway Obstruction
 - 1) Perform an abdominal thrust using the same technique as described in subsections (a)(2) and (b) of this Section for a child one year to eight years old with the exception of finger sweep. Children over eight are treated in the same manner as adults with the exception of finger sweeps.
 - 2) Do not perform finger sweeps on infants or children.
 - 3) Repeat the sequence of abdominal thrusts in a series of five thrusts, open the airway and attempt rescue breathing. If the airway remains obstructed (chest does not rise), reposition the head, and attempt rescue breathing again. If the airway remains obstructed repeat up to five Heimlich Maneuvers. Continue sequence as necessary.
 - 4) Remove foreign body only if it is visualized.
 - 5) If an airway obstruction is not relieved after one minute, activate EMS system.
- (Source: Amended at 18 Ill. Reg. _____, effective _____)
- Section 520.45 Training
- a) Training programs should use the Department's approved methods described in Section 520.40.
 - b) It is recommended that food service establishments voluntarily train employees in the use of the Department's approved methods.
 - c) Training programs should not include practicing the approved methods on others. Abdominal thrusts may cause injury.

SUBPART B: NAMES

Section 178.100 Availability of Names: Statutory Requirements

A proposed limited liability company name shall comply with the applicable provisions of the LLC.

Section 178.105 Preliminary Determination of Availability

Requests for searches of the records of the Secretary of State, Department of Business Services, Limited Liability Company Division, for a preliminary determination of the availability of a proposed name will only be accepted through the Springfield office of the Department. Requests may be made over the counter, by letter, or by telephone and will be answered by the same method; however, no more than three searches may be requested by a single telephone call. A preliminary determination of availability shall be informational only and shall not be deemed a final determination for any purpose.

Section 178.110 Final Determination of Availability

A final determination whether a proposed name is available as a limited liability company name shall be made only upon payment of the proper fees as listed in Section 50-10 of the Act and the submission of a document required to be filed with the Secretary of State, stamped and filed with the Department of Business Services, Limited Liability Company Division.

Section 178.115 Response as to Basis of Unavailability

Any final determination or any preliminary determination under this Subpart that indicates a proposed name is unavailable shall specify a reason therefor when a document has been properly submitted or when a request in writing has been made, and has specifically requested that a reason for unavailability to be stated. Only one reason for unavailability need be stated and, when appropriate, only one conflicting name need be set forth. Any stated reason for unavailability made with respect to a preliminary determination shall be informational only and shall not be deemed a final determination for any purpose.

Section 178.120 Reconsideration Procedure

An applicant may request reconsideration of a final determination that a proposed name is unavailable, by making a written request addressed to the

Director, Room 328, Howlett Building, Springfield, Illinois 62756. The applicant shall attach to this request a copy of the written final determination rejecting the name, and shall include a statement of the reasons upon which the applicant seeks approval of the name. The applicant may include material in support of the request for reconsideration. This reconsideration procedure shall not apply to any request for preliminary determination of availability. Only after the Director's determination of unavailability shall an applicant be entitled to a hearing.

Section 178.125 Effect of Final Determination

A final determination under this Subpart that a limited liability company name is available is concerned solely with the administrative convenience of the Department of Business Services, Limited Liability Company Division and does not warrant the name selected or guarantee the unqualified use of the name without regard to the rights of other parties. The Secretary of State does not pass upon the legality of a limited liability company name by merely permitting organization, qualification, reservation or registration under a name. A final determination of limited liability company name unavailability shall not be based on deceptiveness, confusing similarity or other such considerations derived from unfair competition and trademark law.

Section 178.130 Standards - Conflicting Names

Section 178.140 Matters Not Considered
